1. the cause

THE PROJECT «NOT EVEN AFRAID»

The project «**Not even afraid**» is a tribute to all the young women and men around the world who are fighting courageously for freedom and dignity.

We have seen in the course of many crises, both past and present, that **young people were often the most active**, courageous and resilient actors to defend their values.

In a way, it appears that it is often young people who behave like adults in the face of society's challenges.

Through this project, we want to reassure them that **some adults, too, are not or no longer afraid**

Each page is provisional/confidential

2. the project

The international non-profit «**Not even afraid**» association aims to highlight these visible causes but also to embody on its scale the voice of those who are inaudible.

It will raise awareness through various forms of actions, with the desire to be both constructive and ambitious, pacific yet highly determined.

The first concrete action of the association will be to launch the exhibition «Not in vain» on recent struggles of young people around the world for dignity and freedom.

THIBAUT VAN DIEREN

Born in Congo in 1970, I spent the first two years of my life there with my family, then moved to Morocco and stayed until I was seven years old, after which we returned to Belgium. I studied economics in UC Louvain and met my wife with whom I had two daughters.

For approximately fifteen years, I was involved in the development and management of real estate concepts within our family business.

"I like to imagine things as they could be by telling myself why not"

Subsequently, I branched out to establish my own ventures in hospitality—including hotels, spas, restaurants and events— sector, also spanning around fifteen years.

Today, while maintaining my current activities, I chose to start a new endeavor in the art and design sectors with the launch of the «Art-4 Concept»-project and to engage more tangibly, through the nonprofit organization in formation «Not Even Afraid», in advocating for the causes close to my heart: freedom and dignity, democracy and resistance to oppression
